

The DNA Song

Music by Oasis (Wonderwall)

Lyrics by Mr. Lazzarotto

Em G
 Today is gonna be the day
 D A7
 When you learn how you came to be
 Em G D A7
 Right now you should know how your cells make ATP
 Em G D A7
 But now we'll look inside the nucleus to learn about you and me
 C D A7
 Our DNA.

Em G
 Three parts of DNA
 D A7
 Can make up quite a strand
 Em G
 A base, sugar, and phosphate group
 D A7
 Are the keys to the whole darn plan
 Em G
 If I saw Crick or Watson
 D A7
 I'd say, "Hey you da man!"
 C D A7
 Yeah DNA.

C D A7
 This molecule is copying and winding
 C D A7
 The As and Ts and Gs and Cs are binding
 C D G Em
 Purines and Pyrimidines follow Chargaff's rules
 A7
 And we know why.

C Em G
 Yeah baby,
 C Em G
 It's the molecule that looks crazy
 Em C G
 But after all
 Em C G
 It's double helical.
